

CPC-M[®]

Certified Professional Coder-Master

STUDY GUIDE

2026

Contents

Chapter 1

Advanced E/M Coding and Documentation.	1
Introduction	1
Objectives	1
Selecting the Correct E/M Category and Subcategory.	1
Medicare AWV, IPPE, and CPT® Preventive Medicine Services	1
Medical Necessity	2
Applying MDM: Problems, Data, and Risk.	2
Time-Based E/M Coding.	3
Critical Care Documentation.	3
Care Management Services.	3
Behavioral Health E/M and Psychotherapy Risks	4
Telehealth Services	4
E/M Services With Procedures and Global Surgical Rules	4
Documentation Gaps, Contradictions, and Provider Queries	5
Payer Administrative Processes and Automatic Downcoding.	5

Chapter 2

Evaluation and Management Resources and Regulations	11
Introduction	11
Objectives	11
Authoritative E/M Resources and Medicare Payment References	11
NCCI Edits and Modifier Compliance	11
MLN006764 Booklet for Evaluation and Management Services	11
Incident-To Billing	14
Global Surgical Package.	14
Compliance, Audit Risk, and Documentation Quality	15

Chapter 3

Authoritative Regulatory Guidance and Oversight.	21
Introduction	21
Objectives	21
Hierarchy of Authoritative Coding Guidance	21
Defending Coding Decisions in Audits and Appeals.	21
Payer Policies, Contracts, and Coverage Rules	22
State Regulations, Scope of Practice, Telehealth, and Licensure	23

Oversight Entities: OIG, JC, CLIA, and Other Enforcement Bodies	23
CMS Manuals and Medicare Audit Programs	23

Chapter 4

Complex Surgical Coding 31

Introduction	31
Objectives	31
Using MPFS Payment Policy Indicators	31
Modifiers	31
Global Surgical Package and Included Services	35
NCCI, Integral Services, and “Separate Procedure” Logic	35

Chapter 5

Documentation Validation for Procedures Study Guide 41

Introduction	41
Objectives	41
Validating CPT® Code Selection	41
Using Anatomical References	41
Variant Anatomy and Documentation Validation	42
Surgical Approach: Open, Endoscopic, Percutaneous, and Converted Procedures	42
Robot-Assisted Surgery	43
NCCI Edits, Bundling, and Separate Services	43
Laminectomy, Laminotomy, and Spine Documentation	43
Arthroscopy	43
Fracture Care	43
Thoracotomy, VATS, Diagnostic Bronchoscopy, and Lung Resection	44
Cardiac Catheterization and Percutaneous Coronary Intervention	44
Urinary Endoscopy	45
Operating Microscope	45

Chapter 6

Compliance and Risk Mitigation 51

Introduction	51
Objectives	51
Compliance in the Revenue Cycle	51
Audit and Review Programs	51
High-Risk Coding and Billing Behaviors	52
ABNs and Medicare Liability Modifiers	53
Charge Capture and Reconciliation	53
Reporting Provider, Incident-To, Locum Tenens, Teaching Physician, and Enrollment Risks	53

False Claims Act, Overpayments, and Whistleblower Protections	54
Anti-Kickback Statute, Stark Law, and Exclusion Risk	54

Chapter 7

Denials Management and Revenue Integrity 59

Introduction	59
Objectives	59
Common Coding-Related Denials	59
Modifier and Bundling Denials	60
CARC Examples and Corrective Responses	60
Root Cause Analysis	61
Denial Trend Analysis and Financial Impact Reporting	61
Claim Scrubber, Payer, and Clearinghouse Reports	61
Template Causes and Documentation Risk	62
Incorrect Denials and Payer Contract Issues	62
Corrective Action and Education	62
AI in Denials Management	62
Payment Accuracy	63
EHR and Billing Data for Audit Readiness	63

Chapter 8

Quality Programs and Regulatory Adaptation 71

Introduction	71
Objectives	71
Quality Programs and Their Coding Impact	71
MIPS Quality Capture and Compliant Workflow Design	71
Quality Metrics and Implementation	72
Integrating Regulatory Updates Into Coding Practice	72
NDC Number Updates	72
OIG Work Plan, Risk Assessments, Internal Audits, and Action Plans	73
FDA Approvals, MEDCACs, Technology Assessments, NCAs, and NCDs	73
Clinical Innovation and Coding Impact	74
Coding Adjustments for New Procedures and Technologies	75
AMA CPT® Editorial Panel Process	75

Chapter 9

Technology, Informatics, and AI in Coding 81

Introduction	81
Objectives	81
Technology in Medical Coding	81

Encoder Software	83
System-Generated Edit Messages	83
Reconciliation and Manual Review	84
Tracking Recurring Edits, Denials, and Documentation Integrity Risks	84
Audit Reports and Microsoft Word	84
Excel Analytics for Denials and Productivity	85
PowerPoint Presentations for Clinical and Leadership Audiences	86

Chapter 10

Communication, Education, and Professional Skills 93

Introduction	93
Objectives	93
Communication as a Compliance Skill	93
OIG Compliance Program Elements: Training, Education, and Communication	94
Supplemental Coding Resources	95
Provider Education: ABNs	96
Documentation Specificity and Medical Necessity	96
Productivity and Accuracy Benchmarks	96
Recruiting, Interviewing, Hiring, and Retaining Coding Professionals	97

Chapter 11

HIPAA 105

Introduction	105
Objectives	105
HIPAA and the Coder's Role	105
HIPAA Privacy, Security, and Breach Notification Rules	105
Breach Recognition and Immediate Response	107
Privacy Policy and Patient Rights	107
Security Rule Safeguards	108
Corrective Actions After Privacy or Security Incidents	108

Chapter 12

Practice Test 113

Case 1	129
Case 2	130
Case 3	130
Case 4	131
Case 5	132

Appendix A	
Answers and Rationales for Chapter Review Questions	135
Appendix B	
Practice Test Answer Key	159
Case 1	166
Case 2	167
Case 3	168
Case 4	169
Case 5	171
