LCD Lookup

The LCD look up tool quickly delivers the ICD-9-CM codes your Contractor type(s) allows for a given CPT[®] or HCPCS Level II code. Simply enter your CPT[®] or HCPCS Level II code, select your contractor type, and your state. The search will return any Local Coverage Determinations (LCDs) that your Contractor has for that CPT[®] or HCPCS Level II code. To review results for all states, select "All States" from the dropdown menu. Once the ICD-9-CM codes are displayed, click on the LCD policy button to review the entire policy.
